Grand Prix of the Contest
SUEK JSC
This is our third year of participation. The exhibition is very interesting and lets us communicate with our current customers, find new partners, see what the industry world lives by. Professionals from all sectors come to the exhibition, and, of course, we are happy to talk and exchange experiences with all of them; this is how new promising projects emerge.

Pyotr Fischev
BMH RUS Regional Project Manager

First of all, I would like to thank the organizers of the exhibition for holding such a significant event. Now, in a time of uncertainty, it is a great achievement to bring together such a representative audience. At the exhibition, we had productive meetings with our customers and discussed a number of landmark projects for mining industry and our country as a whole.

Oleg Bagiev
QS Group CEO

This exhibition is interesting for us because it is a platform for communication with customers: we tell them what we have achieved during the year, show our novelties, and the customers share their new projects. This is how a dialogue is built every year around our achievements and customers’ needs, so the exhibition is very important to us.

Andrey Ivanov
Marketing Director of Kanex
EXHIBITORS AND PARTNERS FEEDBACK

On behalf of the Mining University, I would like to express my sincere gratitude to the organizers for inviting me and organizing the exhibition. The event was very eventful and useful in every way. We have established contacts with a lot of companies at the exhibition and already received a feedback.

I.I. Beloglazov  
Associate Professor, St. Petersburg Mining University, Department of Automation of Processes and Production

It was very productive. We actively worked during the business program at the Mining Industry Leaders Forum, as well as at the booth. We found new potential partners, and were able to communicate in a relaxed and friendly atmosphere with the top executives of the largest mining companies. We had interesting meetings with equipment manufacturers. This year, all sessions were very lively and sharp, really interesting.
